SVS995 Console

Technical data sheet

Part Number: 107588

DESCRIPTION:

The SVS995 is a standalone console which supports up to four radios, analogue, IP connected ED-137 or any mix of the two. Because it can be powered via Power over Ethernet (PoE) only a single wire is needed to connect and power this console for ED-137 radios. The product is designed with the latest techniques, however we have ensured backward compatibility with our TCS990 series as well as forward compatibility with our future systems.

FEATURES:

- Capacitive touch screen
- Footswitch connections
